

Cut out the "SNOURTH-ometer" or "MEGA SNOURTH-ometer or both. Cut out as many "SNOURTH-iscope" as you think you may need along the red lines. Make each one a different height. Fold each "SNOURTH-iscope" along the blue lines and glue the two sides together. Glue the blue rectangular pads to the bottom of the "SNOURTH-iscope" tabs. This will help them to stand up straight.
